Education

Bachelor's of engineering, Jordan University of Science and Technology Jun 2015 — Jul 2020

Professional Experience

Full Stack Developer, Logistaas Feb 2022 - Present

- **TMS Development and Optimization:** Led the development of scalable and user-friendly features for a Transportation Management System (TMS) using Ruby and Ruby on Rails, ensuring high performance and reliability.
- **Database Management & Reporting:** Optimized PostgreSQL schemas and wrote complex SQL queries to generate real-time, data-driven reports with accurate insights.
- **Third-Party API Integrations:** Developed and maintained seamless integrations with external platforms and APIs to automate workflows and streamline data exchange.
- **Feature Expansion:** Delivered robust new features while maintaining backward compatibility, ensuring adaptability to evolving business requirements.
- **Accounting System Implementation:** Built a comprehensive accounting module within the TMS, integrating financial tracking and reporting capabilities for end-to-end operational management.
- **Client-Specific Development:** Developed and maintained backend services using Node.js, Spring for a client specific project, ensuring seamless integration with existing systems and APIs.

Full stack developer - Freelance, Vatrenas Jan 2023 - Jan 2025

- Developed and maintained the back-end architecture using Ruby on Rails.
- Designed and implemented the front-end user interface, ensuring a seamless user experience.
- Integrated third-party APIs for payment processing, shipping logistics, and inventory management.
- Managed PostgreSQL databases, including schema design, indexing, and query optimization.

Full Stack Developer Trainee, Orange Sep 2021 - Feb 2022

Completed a 6-month intensive Full-Stack Development bootcamp at Orange Coding Academy. The program covered advanced topics in both front-end and back-end development, The curriculum emphasized practical, hands-on experience with real-world projects and included training in best practices for software development, version control, and deployment.
